In an effort to improve communication between Fraternity and Sorority Life Programs and many stakeholders who work for the success of the fraternal community at CSU, we have created our new FSL Newsletter, *The Keynote*.

The FSL Newsletter is publication where the governing councils, programming board, and the office will share news, important announcements, and much more!

GREEK CENTER RENOVATIONS

One of the many reasons behind the renovation of the Greek Center is to create a common space where our fraternity and sorority members can engage with each other, relax, have a multi-functional area that fosters collaboration and study, as well as to provide a large meeting space for our events and meetings.

We are extremely thankful for Columbus State University’s leadership that has decided to invest in the Fraternity and Sorority Community. We are on week 6 of the renovation project and you can already see great change inside the building. The Greek Center will have a new ceiling, new floors, new carpet, new furniture, and much more - we do not want to give away all the surprises!

We would like to say thank you to those who have helped us accomplish this major project. From our members in the community, to the advisers, alumni, faculty, staff, and construction personnel. Thank you for investing and believing in our community. As we prepare for the beginning of the fall semester and move back into our new space we ask for your patience and support!

Eli Argueta, Coordinator for Fraternity and Sorority Life Programs
